

# Agile Immersion for VersionOne Users

Students work as a group to select a set of agile topics that are most relevant to their experiences and interests. An agile expert then builds the agenda dynamically based on the group's selections and presents the appropriate topics, facilitating discussions and exercises that reinforce the agile principles involved. By the end of the course students will have a broader understanding of agile best practices and how to apply them in their teams.

## Course Outline

- Kick-off group exercise to select Agile topics covered to ensure relevancy for all participants
- Additional interactive exercises will help class understand the application of agile methods to their own teams
- Candidate Topics Include:
  - Agile Contracts
  - Agile Foundation
  - Agile Metrics & Reporting
  - Agile Organizational Principles
  - Managing Agile Projects & Releases
  - Agile Meeting and Team Facilitation
  - Agile Iterations
  - Agile Best Practices
  - Agile Roles & Responsibilities
  - Offshore Agile
  - Agile Processes
  - Empowering Agile Teams
- Conclusion and Q&A
  - Team Wrap-up Exercise
  - Question & Answer Session
